Development Case

1. Introduction

1.1 Purpose

The purpose of this documentation is to provide the reader with the details on the development process used to create 'jShark' and how that process is adapted.

1.2 Scope

This document describes the development process of 'jShark', a network protocol analyzer for Android.

1.3 Definitions, Acronyms, and Abbreviations

- RUP – Rational Unified Process
- NPA – Network Protocol Analyzer

1.4 References

- [1] jShark, Project Feasibility Report, Version 1.0, @Arukoda J.S.
- [2] jShark Project Vision Document, Version 1.0, @Arukoda J.S
- [3] jShark, Project Schedule, Version 1.0, @Arukoda J.S.

1.5 Overview

'jShark' is planned to be developed under RUP. This document describes how RUP is adapted for this project. Section 2 provides an overview of the development case. Section 3 presents the workflow and major artifacts of the RUP disciplines.

2. Overview of the Development Case

2.1 Lifecycle Model

'jShark' will be developed iteratively. After project plan and project design phases each of which has one iteration, the development phase will commence with 2 iterations.

In the project plan phase, the major deliverables will be the Project Feasibility Document ^[1], Project Vision Document ^[2], Project Schedule ^[3] and the Project Development Case Document. The project will be demonstrated after one iteration of the development phase and the final demonstration will be done after the full development and integration.

2.2 Disciplines

The development case covers all disciplines of RUP including the 6 engineering disciplines and the 3 supporting disciplines.

Engineering Disciplines

- Business Modeling
- Requirements
- Analysis and Design
- Implementation
- Test
- Deployment

Supporting Disciplines

- Configuration and Change Management

2.3.1 Artifacts

Artifacts	How to Use				Review Details	Tools Used	Templates/ Examples
	Incep	Elab	Const	Trans			
Feasibility Study	X						

2.3.1.1 Explanation of the table

Column Name	Purpose	Contents/Comments
Artifacts	Feasibility Study	A feasibility study is carried out to ensure that the project is feasible
How to Use	The decision of whether to do this project or not is based on this study	A feasibility report is a must have at inception phase.

2.3.2 Reports

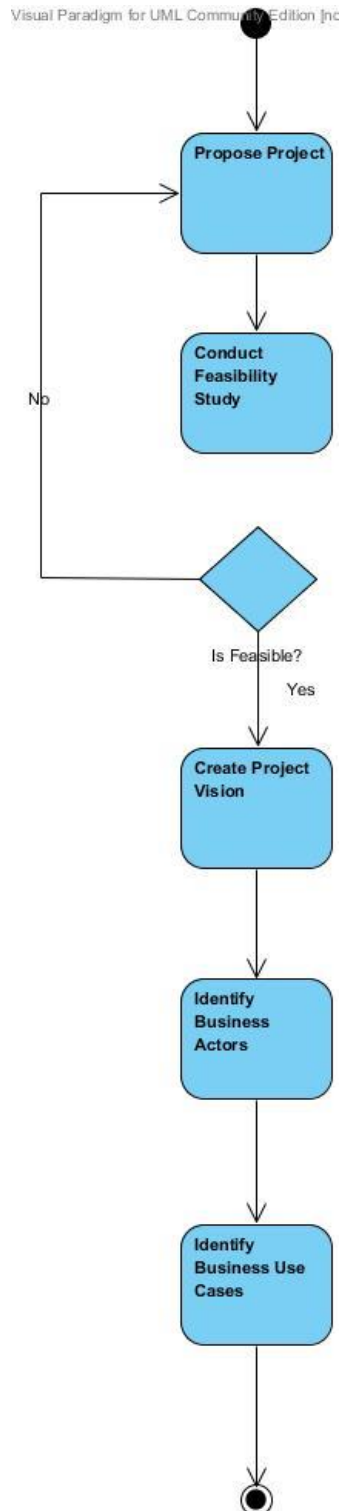

Reports	How to Use	Templates/Examples	Tools Used
Project Proposal	Propose the project	-	MS Word
Project Feasibility Document	Check the feasibility of the project	-	MS Word
Project Vision Document	State the project goals	RUP Template	MS Word
Project Schedule	Schedule the entire project	-	Open Proj
Project Development Case	Propose the development plan	RUP Template	MS Word Visual Paradigm
Weekly Reports	Provide progress reports / project status	RUP Template	MS Word
